Shipping recommendations:

1. Please include a copy of the submission form along with your shipment, as this contains your contact information so that we can verify the contents of the incoming shipment.
2. Pack items carefully using either bubble wrap or similar packing material and ensure that the contents are secure inside the parcel; this helps to prevent damage during shipping.
3. All incoming shipments must be sent with tracking. When shipping items to us through either Canada Post or USPS, please use the address above. If using a courier service, such as FedEx or UPS, please contact us for an alternative shipping address.
